BY FRANCES JONES.

Girls! Save Your Hair!
Make It Abundant!

Immediately after a "Danderine" massage, your hair takes on new life, lustre and wondrous beauty, appearing twice as heavy and plentiful, because each hair seems to fluff and thicken. Don't let your hair stay lifeless, colorless, plain or scraggly. You, too, want lots of long, strong, beautiful hair. A 5-cent bottle of delightful "Danderine" freshens your scalp, checks dandruff and falling hair. This stimulating "beauty-cream" gives to thin, dull, fading hair that youthful brightness and abundant thickness—All druggists!

Last fall a Philadelphia store opened its "stout" department with a great success, says the Economist.

"The saleswomen were and are selected for their ample proportion of their ability to wear clothes that greatly reduce their apparent size, and for their tactful, well-bred methods of selling. In the personnel of the sales force will be found the woman who is large all over, she who has large hips or large bust, the short-waisted stout woman and the short-legged stout woman. Dandruff Soon Ruins The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

A very small portion of the people here who have planned to view the canvases have seen so far that the men of the Art guild have urged that if Topeka people are desirous of seeing these paintings that they attend before they are taken away next week on November 10. One of the women remarked this morning that "one can attend a movie, go to a tea party or a club meeting most any day in the year, but it isn't every day that Topeka people can attend an exhibit."

THERE'S A WOMAN IN OUR TOWN
Who not long ago was reading a clipping of a party held over twenty years ago. The hostess at the affair were two old people celebrating their golden wedding anniversary and someone in the crowd had made a speech to the effect that while these two old people had been living in peace the "world had been in a turmoil" and that they had been seen before. "One cannot help wondering exactly what adjective that speaker of twenty years ago would use now in talking of the world of today."

SMART SUIT FOR STYLISH STOUTS

Here is a smart suit which will find many admirers among the women of more matronly figures. It is fashioned of ray blue silver-tone. The skirt is plain, while the coat shows a large, graceful collar, novel pocket effects, button and embroidery, trimming and a very narrow belt. There is nothing to accentuate the too plump curves; everything tends to give longer lines.

The guests included: Mr. and Mrs. H. L. Bartlett, Mr. and Mrs. R. W. McDaniel, Mr. and Mrs. H. E. Harris, Mr. and Mrs. Clyde A. Howe, Miss Alma Walden, Miss Eunice Standish, Mr. P. J. TO GIVE THE HAIR A Naturally Wavy Effect

Ever since the virtues of the silmerine hair-curling method first became known in this country, druggists here have been having a really extraordinary demand for liquid silmerine. Its effectiveness, its convenience and its entire harmlessness doubtless have been responsible for its increasing use and popularity.

One need only apply a little of the liquid with a clean tooth brush before doing up the hair in the desired style and moisten each of them from root to tip. There is no discoloration, no staining or other unpleasant feature. Liquid silmerine is fine also as an aid in shaping hair units and in keeping them in place over the ears.—Adv.

These artists—and they are all well known artists in their own right—have come to Topeka to prove conclusively that Mr. Edison's ideal of perfect "Re-Creation" has been achieved in the wonderful New Edison, the "Phonograph with a Soul."

After you have heard these artists and been charmed by the performance of The New Edison you will, no doubt, want to hear one in your own home. If you do, we will gladly send one out to you for comparison with the phonograph which you have or for a few days' trial—we do this without obligation on your part.

We are not sending out tickets for this "Tone-Test" Concert as that method has overlooked some folks in the past. We will send them to you if you ask or give them to you if you'll call for them.
